To whom it may concern:

Darren Murphy was a seminar leader at the Kentucky EMS Conference and EXPO. His subject matter was training the trainer in communication skills. I was extremely impressed with his presentation methods. The seminar evaluations consistently proved this fact. Some stated that they wished he had had more time, others stated that they could not wait to get back into the classroom to implement these new learned skills and strategies.

We sincerely hope to be able to contract with him again for future conventions and seminars. The students were very pleased with his style and content. He has a very unique presentation style that takes existing instructors and motivates them into "new and improved" instructors! I say this because I read the evaluations which stated their intent to utilize the news skills and strategies they had just learned.

Feel free to contact me regarding Mr. Murphy's abilities to lead a seminar. I highly recommend him. Please do not hesitate to give me a call if I may be of assistance.

Sincerely,

Lee Brown BSEd, AAS-Paramedicine, RN, NREMT-P, CCEMT-P
