To Whom It May Concern:

The seminar presented by Darren J. Murphy on June 21, 2002 to the Barren River District Health Department staff and other local health care representatives on Multi-cultural Communication was very informative. I worked closely with Mr. Murphy to assure the training met our specific needs. It was targeted towards our agency meeting the needs of other cultures in our community.

Mr. Murphy was very knowledgeable, experienced, and entertaining as well. I would recommend this seminar for other agencies with similar needs.

Sincerely,

Gina Reid, R.N.
Clinical Director
