

To whom it may concern:

After attending Darren Murphy's Creative Thinking Workshop recently, I felt compelled to write a letter of recommendation on his behalf. Mr. Murphy came to the workshop prepared, incorporated positive insights, and presented the material in an engaging manner.

More than that, his presentation demonstrated his unique talents for holding the audience's attention with his use of relevant examples, humor, and knowledge regarding the subject matter.

I found his congenial mannerisms and straightforward speaking style likeable. Integrating the participants in group activities pertaining to the topics made the seminar an even more enjoyable event. I especially liked the fact that Mr. Murphy made himself readily accessible to his audience in responding to questions.

As an author and Registered Nurse, I use creative thinking on a daily basis. It is tantamount to accomplishing required tasks in both professions. I can honestly give my highest endorsement for Darren's Murphy's Creative Thinking Workshop, and I believe it will be a great benefit to many organizations and their employees.
